और सामाजिक न्याय एवं अधिकारिता राज्य मंत्री  
भारत सरकार  
नई दिल्ली-110001  
MINISTER OF STATE FOR  
JAL SHAKTI AND SOCIAL JUSTICE & EMPOWERMENT  
GOVERNMENT OF INDIA  
NEW DELHI - 110001

Respected Sh.

10 JUN 2021

Namaskar. I hope you are safe and healthy.

2. At the outset, I would like to congratulate you for putting sincere efforts in our fight against Covid-19 pandemic. Collectively, we will soon defeat the pandemic at the earliest.

3. As a developing and progressing nation, the importance of water as a vital resource is also increasing. Population growth, increasing demand of water in agricultural and industrial sector and climate change are major factors influencing the availability of water. Per capita water availability in India has significantly reduced due to its expanding population. If supply of water is not increased and the demand and wastage of water is not reduced, there could be water shortages in the future. Therefore, water conservation has become the need of the hour.

4. Realising its importance and to make *Jal Andolan a Jan Andolan*, Hon'ble Prime Minister launched "**Jal Shakti Abhiyan: Catch The Rain**" campaign - a time-bound, mission-mode water conservation campaign- on 22 March 2021, the World Water Day, covering all districts (rural as well as urban areas) of the country. The theme of the campaign is "*Catch the Rain, Where it falls, When it falls*" and it will be taken up in all areas- cities, municipalities and villages- of the country from 22nd March 2021 to 30th November 2021 i.e. the pre-monsoon and monsoon period.

5. The campaign will focus on *maintenance of the existing Water Harvesting structures (RWHS) and creation of new RWHS, preparation of the geo-tagged inventory of all water bodies in the country, followed by a detailed scientific plan for water conservation at the village level and setting up of Jal Shakti Kendras as integrated water knowledge centers in all districts*. The campaign envisages inter-ministerial and inter-sectoral convergence of all development programs related to water and its conservation like MGNREGS, AMRUT, Repair, Renovation and Restoration (RRR) Scheme, Water Shed Development Scheme, Per Drop More Crop etc taken up by the Central and State governments. **A detailed note on JSA:CTR is enclosed.**

6. As a run up to the Monsoon 2021, the "JSA-Catch The Rain Awareness generation" campaign was launched on 21 December, 2020, in collaboration with NYKS (Nehru Yuvak Kendra Sanghatan) which is being implemented in 623 districts of the country. So far, it has seen participation of over 2.27 crore people, including Government functionaries like DMs, Municipal Commissioners etc; Public Representatives, Sarpanchs etc; youth and common people.

विशाल जल संसाधन

7. The successful implementation of the "*Jal Shakti Abhiyan: Catch the Rain*" campaign heavily relies on active participation of local community, at the grass root level. It aims at motivating people to turn water warriors. This shall foster a sense of ownership for the community water conservation structures created under various Government Programs.

8. I strongly believe that your dynamic leadership can play a crucial role as Member of Legislative Assembly in motivating people to actively participate in water conservation activities and to ensure the success of this Nationwide Campaign.

8. May I also take this opportunity to request you to promote, participate and support the *Jal Shakti Abhiyan: Catch The Rain* campaign and together we can make this "*Jal-Andolan a Jan-Andolan*". This will go a long way in accelerating the process of water conservation across the country.

**Jai Hind**

Yours sincerely,

(Rattan Lal Kataria)

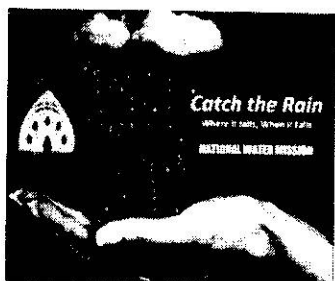

Sh.....  
Member of Legislative Assembly,

## **“Jal Shakti Abhiyan: Catch The Rain” Campaign**

-G.Asok Kumar,  
Additional Secretary and Mission Director, NWM

1. “Catch the Rain” campaign with tag line **“Catch the rain, where it falls, when it falls”**, initiated by National Water Mission (NWM) is to nudge the state and all stakeholders to create appropriate Rain Water Harvesting Structures (RWHS), suitable to the climatic conditions and sub-soil strata, to ensure storage of rainwater with people’s active participation, as rains falling in the 4-5 months of monsoon are the only source of water for most parts of the country.

2. There is need to conserve this water to (1) replenish the ground water, improve the water table and soil moisture, (2) meet the water demands till the next rains after 8 months (3) reduce flooding, particularly urban-flooding.

3. Hon’ble Prime Minister mentioned the campaign in his “Mann Ki Baat” on 28.2.2021 and **launched** it as a nationwide campaign on 22.3.2021, World Water day, *virtually* addressing all District Magistrates (700+) and all Sarpanchs (2.5 lakh+) of the country. Special *Gram Sabhas* were held on the day to discuss water conservation related topics and participants took Jal Shapaths. PM wrote a letter dated 24-3-2021 to ALL Sarpanchs seeking their active participation and a letter dated 25-3-2021 to ALL Chief Ministers seeking their co-operation in the campaign.

4. Cabinet Secretary held meeting on 10.3.2021 with Secretaries of Ministries concerned in GoI and on 18.3.2021 with Chief Secretaries of states giving directions to participate in the campaign.

5. Under the campaign, all State Governments were asked to direct all concerned *to build RWHS to tap rain water from roof-tops and open-grounds of all government, semi-government and corporate offices*. Chief Secretaries of states were requested to direct district authorities to *enumerate all water bodies, verifying with old revenue records to prepare geo-tagged inventory of all water bodies in the district and remove encroachments if any*. All Collectors were requested *to prepare a detailed scientific plan for water conservation from the village level; start “Jal Shakti Kendras” to act as integrated water-knowledge-centres at district level and to give technical guidance on RWHS*. The campaign also includes *drives to ensure maintenance of existing Water Harvesting Structures (WHS) like check dams, ponds, lakes etc and creation of new WHS where needed; removal of encroachments & de-silting of water bodies to increase their storage capacity; removal of obstructions in the channels which bring water to them; repairs to step-wells and traditional RWHS; use of defunct bore-wells to recharge aquifers; restoration of wetlands and rejuvenation of rivers etc; awareness building drives & workshops to sensitize & involve people, school children & other stakeholders for their active participation*.

6. Earlier, along with Nehru Yuva Kendra Sangathan (NYKS), NWM had launched an awareness generation campaign on 21-12-2020 to cover ALL districts in the country. 12.24 lakh people participated in the "Jal Shapath" on 1.Jan.2021. 700 NYKS District Coordinators in all states were given online training from 22 Jan to 6 Feb2021. Over 2.27Crore people have participated in this campaign, as on 31-3-2021, as per the NYKS reports.

7. NWM had also taken following actions to build the momentum and get the campaign going:

(i) Seeking their support in "Catch the Rain" campaign, **DO letters were sent from**

(1) Sri Gajendra Singh Shekhawat, Minister for Jal Shakti to Ministers of Defence; Home Affairs and Education; and to all Chief Ministers and Governors of states.

(2) Dr Rajiv Kumar, VC, NITI AYOG to Chief Secretaries of states; Directors of all IIMs/IITs

(3) Additional Secretary & Mission Director, National Water Mission to:

(a) Chief Secretaries of all States/UTs; Secretaries of the Ministries of Defence; HRD; Heavy Industries; Department of Defence Production; Chiefs of Defence forces; Chairman, Railway Board; DRMs, Chairman, Airport Authority of India; Director Generals of Central Armed Police Forces (CAPF); DG and EinC of MES requesting them to direct their officers concerned to take steps to make appropriate RWHS in their institution premises before onset of monsoon.

(b) Directors of all IITs & IIMs Vice Chancellors of government and private universities; Commissioner, Kendriya Vidyalaya Sangathan requesting to take steps to ensure RWHS in the premises of the universities and educational institutions under them.

(c) all District Magistrates/ District Collectors/ Deputy Commissioners on 11.05.2020, 9.10.2020, 9.12.2020 and 15.03.2021 requesting to take steps to ensure appropriate rain water harvesting and artificial recharge measures before the onset of the monsoons.

(ii) Over 150 Webinars have been held: eg. With NGOs; top managements of some industries; FICCI and its associates to involve them; with selected 4-5 DMs/Municipal Commissioners & 1 NGO on every Saturdays, since 8.8.2020 to "*get feedback from the field and to motivate them*". Have covered over 75 DMs/MCs and 25 NGOs in 2020-21.

(iii) Got endorsements from dignitaries like Vice President of India; VC, NITI Ayog; CEO, NITI Ayog; celebrities like Sri Ravishankarji, Sadgurujji, Sonam Wangchuck; Mohanlal, Gopi Chand etc; water activists like Dr Anil Joshi, Dr Rajender Singh, Mr Mahesh Sharma etc for the campaign.

Together, we should strive to "**Catch The Rain**", *where it falls, when it falls* to make

Jal Andolan a Jan Andolan.
